

Additional information for clients who use the needle exchange

You may be asked some additional questions regarding your personal circumstances when you visit the needle exchange, such as:

- Your current **accommodation** or housing need
- Your current **employment** situation
- Your current **parental** responsibilities
- Whether you currently live with a **disability** or a chronic illness

The information is processed by the Public Health Institute, Liverpool John Moores University, who provide information to Public Health Teams within your Local Authority area to help plan the provision of support services.

At no point is any personal information shared or disclosed which may be used to identify you individually.
