

INTRODUCTION:

Hello everyone, hope you are all well and enjoying the best summer we've had in about 300 years - at least since 1976 for those of you who remember it. This report is the first of the new financial year and is the first under the new IMS ("Integrated Monitoring System") moniker. We met with commissioners and public health leads in May to discuss the new system and the feedback was very positive, particularly on the breadth of the system and its potential to provide a comprehensive picture of all tiers of treatment delivered across the region. The system comes at a critical time with the publication of the new NICE guidance for collecting data on Needle Exchange programmes, and the dataset as it develops will incorporate those data items for services wishing to use them.

The development of the online web-based data collection tool which will replace GOLIATH, BAKER and LAIKA is coming along at a pace. We intend to have a soft launch event for the IMS during the autumn where there'll be an opportunity to have a first look at the new data collection tool and to also discuss suggestions for the future development of the dataset. The full roll out of the new data collection tool and dataset will then take place in 2015-2016 Q1. Any questions in the meantime, please do get in touch and thank you for your continued commitment to supporting this system which evidences all the good work that takes place within your services.

ACTIVITY SUMMARY FOR: LIVERPOOL

Number of individuals who accessed non-structured interventions this quarter (and year to date).	2,183 (2,183)	1,470 (1,470)	713 (713)
	 All Individuals	 Men	 Women
	Number of separate activities that were accessed this quarter (and year to date).		
Number of separate activities that were accessed this quarter (and year to date).	12,195 (12,195)	1,690 (1,690)	242 (242)
	 Brief Interventions	 Onward Referrals	 Syringe Exchange Transactions
	589 (589)	7 (7)	96 (96)
	 Wellbeing / Review	 Health Screening	 Syringe Exchange Returns

CLIENTS SUMMARY: BY AGENCY

NUMBER OF INDIVIDUALS SEEN BY QUARTER:

The number of individuals reported for all agencies each quarter, and the total number of individuals seen during the current year to date. The local authority figures are the total unique individuals.

ADDITIONAL NOTES

The figure for those accessing services includes all individuals who had an intervention, an onward referral, a well being review, a health screening, or a syringe exchange transaction during the quarter.

The number of individuals shown Year to Date (YTD) is not necessarily a sum of the quarterly figures as the same individual may have presented in more than one quarter, but they will only be counted once in the YTD number. Likewise the Local Authority total is less than a sum of the agency figures where an individual has presented at multiple services during the period.

The activity summary shows the number of activities delivered by each service.

The Year to Date (YTD) activity figure is cumulative and should represent the sum of each quarterly figure, unless any retrospective changes are made to the data by the agency following their quarterly data submission.

The client review data section includes all clients who have accessed services at any time during the current year to date, and details information that is collected in the client assessment review, such as Primary Substance of use, Accommodation status, Employment Status, and Parental status.

Where the client has multiple assessments completed, only the last completed assessment has been used.
