

INTRODUCTION:

Hello. This is the second quarterly report for the 2015-16 year and covers all activity from 1st April – 30th September 2015. Because of a change of data recording systems by some agencies/pharmacies, there are some missing data from this quarter's report but this will be brought up to date via aggregated totals in the report for Q3 when that's published.

IMS has featured in the programme "Improve and Protect" produced by the Royal Society for Public Health (RSPH). A section of the programme featured the monitoring systems provided by the Centre for Public health and focused on IMS. The full programme and further details about RSPH can be found here: www.rsph.org.uk/improveandprotect

IMS has been shortlisted as a finalist in the 'Best example of advancing local NHS systems for innovation' category at the 2015 North West Coast Research and Innovation Awards. More details here: www.nwcawards.co.uk

The 2014/15 annual report is currently being finalised and will be published in December. This report will details all IMS client activity recorded during 2014/15 across Cheshire and Merseyside, and cross matches activity recorded in IMS with client numbers from the National Drug Treatment monitoring System (NDTMS) and the Drug Intervention Programme (DIP).

We have recently added two new modules to IMS these now allow you to record information relating to NPS (novel psychoactive substances) or 'legal highs' and to record 'Take home Naloxone kits' that are issued to clients. Further information on both these modules is available on our website: www.cph.org.uk/ims/imsdataset

Thanks as always for your commitment to IMS.

ADDITIONAL NOTES

The figure for those accessing services includes all individuals who had an intervention, an onward referral, a well being review, a health screening, or a syringe exchange transaction during the quarter.

The number of individuals shown Year to Date (YTD) is not necessarily a sum of the quarterly figures as the same individual may have presented in more than one quarter, but they will only be counted once in the YTD number. Likewise the Local Authority total is less than a sum of the agency figures where an individual has presented at multiple services during the period.

The activity summary shows the number of activities delivered by each service.

The Year to Date (YTD) activity figure is cumulative and should represent the sum of each quarterly figure, unless any retrospective changes are made to the data by the agency following their quarterly data submission.

The client review data section includes all clients who have accesses services at any time during the current year to date, and details information that is collected in the client assesment review, such as Primary Substance of use, Accomodation status, Employment Status, and Parental status.

Where the client has multiple assessments completed, only the last completed assessment has been used.
