

INTRODUCTION:

Hello everyone. This is the second quarterly report for the 2016-17 year, including all year to date activity for period 1st April – 30th September 2016. Figures shown for previous quarters have also been updated where retrospective data has been entered.

This report illustrates the importance of your data recording to evidence the activity delivered by services within each local authority area. In addition the sections showing primary substance, accommodation, employment and parental statuses use data which is collected as part of the client assessment. Jane Webster our Data Quality Lead is now working with IMS services to improve completion rates. Jane's details are available on our contact page:

<https://ims.ljmu.ac.uk/contact>

The 2015/16 IMS annual report is currently being finalised and will be available shortly with the detail for all IMS client activity recorded during 2015/16 across Cheshire and Merseyside, and cross matched activity recorded in IMS with client numbers from the National Drug Treatment monitoring System (NDTMS) and the Drug Intervention Programme.

The IMS Assessment was updated on 1st October to include new items in IMS Core Data Set 2.0. A key change is the expansion of the 'Chronic Conditions or Disability' field. Full details are available in the assessments user guide:

<https://ims.ljmu.ac.uk/PublicHealth/reference/IMS-Assessments-CDS-2-0.pdf>

Drug Related Deaths reporting has now moved into IMS, meaning that you can enter data directly into a client record. Various users can be assigned to a single client record where they had multiple partners involved in their treatment. If you would like access to the DRD module, please contact us to let us know

IMS now has a new page which brings together information relating to IMS including our annual reports, quarterly reports, and user guides. A link for the IMS info page is: <https://ims.ljmu.ac.uk/info>

Thank you to everyone who was able to attend the formal launch of our new name as the Public Health Institute (PHI). It was great to see many of you. As always thank you for your continued support.

ACTIVITY SUMMARY FOR: HALTON

Number of individuals who accessed non-structured interventions this quarter (and year to date).

Number of separate activities that were accessed this quarter (and year to date).

CLIENTS SUMMARY: BY AGENCY

NUMBER OF INDIVIDUALS SEEN BY QUARTER:

The number of individuals reported for all agencies each quarter, and the total number of individuals seen during the current year to date. The local authority figures are the total unique individuals.

		-	-	-	-	-	-	-	-	-	-
HAL	Halton Local Authority	0	0	0	0	0	12	***	186	***	257

* Percentages shown are of those NSP clients who had a primary substance recorded

The figure for those accessing services includes all individuals who had an intervention, an onward referral, a well being review, a health screening, or a syringe exchange transaction during the quarter.

The number of individuals shown Year to Date (YTD) is not necessarily a sum of the quarterly figures as the same individual may have presented in more than one quarter, but they will only be counted once in the YTD number. Likewise the Local Authority total is less than a sum of the agency figures where an individual has presented at multiple services during the period.

The activity summary shows the number of activities delivered by each service.

The Year to Date (YTD) activity figure is cumulative and should represent the sum of each quarterly figure, unless any retrospective changes are made to the data by the agency following their quarterly data submission.

The client review data section includes all clients who have accessed services at any time during the current year to date, and details information that is collected in the client assessment review, such as Primary Substance of use, Accommodation status, Employment Status, and Parental status.

Where the client has multiple assessments completed, only the last completed assessment has been used.

Needle and syringe programme data includes all clients who have had a needle and syringe exchange transaction or exchange return recorded at any time during the quarterly period or current year to date.
