

INTRODUCTION:

Hi everyone. This is the report for the third quarter of the 2016-17 year which includes all year to date activity for the period 1st April – 31st December 2016. Figures shown for previous quarters have also been updated where retrospective data has been entered.

We have recently introduced a new feature for users of IMS online: the 'quick assessment' pop-up window allows entry of the minimum data items for clients who've not previously had an assessment. Several agencies using this new feature are already showing improved data quality in the collection of assessment data. If you have any suggestions for updates or enhancements to IMS then please do contact us. <https://ims.ljmu.ac.uk/contact>

Our latest IMS annual report was published in December <https://ims.ljmu.ac.uk/annual>. The report includes detail of the 209,606 interventions, transactions and referrals that were delivered during 2015/16 to 26,197 individuals. The report also includes a detailed breakdown of the 47 services and 84 pharmacies that contributed to IMS during the year.

The IMS info page contains lots of IMS information including our annual reports, quarterly reports, user guides, reference data, media and videos, and links to our interactive maps page: <https://ims.ljmu.ac.uk/info>

Over the next few months Howard is completing a research project looking at the data collection from needle and syringe exchange services. This will include a survey questionnaire asking for your opinions relating to the delivery of needle and syringe exchange. Participation is voluntary and anonymous, so he'll be very grateful for your involvement.

As always thank you for your continued support of the Integrated Monitoring System.

ACTIVITY SUMMARY FOR: HALTON

Number of individuals who accessed non-structured interventions this quarter (and year to date).

Number of separate activities that were accessed this quarter (and year to date).

**CLIENTS SUMMARY: BY AGENCY**

**NUMBER OF INDIVIDUALS SEEN BY QUARTER:**

The number of individuals reported for all agencies each quarter, and the total number of individuals seen during the current year to date. The local authority figures are the total unique individuals.

HAL	Halton Local Authority	0	0	0	0	0	21	***	238	***	274

\* Percentages shown are of those NSP clients who had a primary substance recorded

The figure for those accessing services includes all individuals who had an intervention, an onward referral, a well being review, a health screening, or a syringe exchange transaction during the quarter.

The number of individuals shown Year to Date (YTD) is not necessarily a sum of the quarterly figures as the same individual may have presented in more than one quarter, but they will only be counted once in the YTD number. Likewise the Local Authority total is less than a sum of the agency figures where an individual has presented at multiple services during the period.

The activity summary shows the number of activities delivered by each service.

The Year to Date (YTD) activity figure is cumulative and should represent the sum of each quarterly figure, unless any retrospective changes are made to the data by the agency following their quarterly data submission.

The client review data section includes all clients who have accessed services at any time during the current year to date, and details information that is collected in the client assessment review, such as Primary Substance of use, Accommodation status, Employment Status, and Parental status.

Where the client has multiple assessments completed, only the last completed assessment has been used.

Needle and syringe programme data includes all clients who have had a needle and syringe exchange transaction or exchange return recorded at any time during the quarterly period or current year to date.
